

Custom Themes

Endless Personalization

You no longer have to wish for the perfect theme design. If the theme library offered by Tukios doesn't fit the family's needs, you can design one specifically for them.

Each custom theme is saved into your library for future use.

How Custom Themes Work

- 1 Find the perfect images.
- 2 Pick fonts and colors.
- 3 Tukios animates intro/outro.
- 4 You've got a new theme!
